Textures and Patterns

with

Melinda Pope

Join us this month as we explore textures and patterns in photography.

What can we use them for?

How can we make them stand out?

Where can we find them in nature?

This event is open to any garden club member in District 2B. If you plan to attend, please call or send a message to Melinda Pope, gardenphoto21@gmail.com, 517-349-5025 so we have an idea of how many to expect. Also contact Melinda if you would like to be added to the mailing list for 2B Photographers.
